

Mobile Industrial Robots

MiR Hook Seminar

February 14th, 2018 from 11:00 AM - 1:00 PM
Lunch is provided

Learn how Mobile Industrial Robots (MiR) can automate in-house transportation in potentially any industry with an easy to program web interface. This hands on, interactive seminar will showcase MiR 100, MiR 200, and the MiR Hook capabilities. MiR 200 has a higher payload and will only be in town for a limited time. Come see our MiR Hook demonstration!

Nic Temple
Factory Representative

Conveyor Bands

Robot Arms

Safety Units

Hook towing

Custom Modules

Shelf Lift

ERP Integration
