COLLABORATIVE vs INDUSTRIAL ROBOTS

June 6th, 2018 from 10:00 AM - 12:00 PM

Lunch is provided

4830 Azelia Ave. N, Minneapolis, MN 55429

What applications are ideal for collaborative robots? When is it more cost effective to use an industrial robot? What about safety? What are the benefits and drawbacks of each?

Learn the fundamental differences between the collaborative and industrial robots and what applications are best for each type of robot. See robot demonstrations, ask questions, discuss possible applications!
